## ***A Square Deal To Everyone***

**T**WENTY-SIX years of practical experience enables me to know where to get the best stock, for which I contract with growers who specialize in the different plants—there being few who can grow many things well.

I am in touch with the leading growers at all times and know who has the best stock at right prices, so it is an advantage for you to place your orders with me.

My prices are always the same as the producer's. Try me and satisfy yourself.

---

**TERMS:** Sixty days net, 2% for cash in 10 days, 3% cash with order.

**NEW ACCOUNTS:** Cash with order, or satisfactory trade references.

**C. O. D. ORDERS** must be accompanied with a deposit.

**DAMAGED PLANTS:** Should a shipment reach you by express damaged, sign for it: "**Received in damaged condition,**" and be sure to notify your express agent at once to inspect the plants. Then notify me immediately and I will collect from Express Company and make good to you. Do not return plants to me without first communicating.

**CLAIMS:** All claims must be made on receipt of goods, or they will not be entertained.

250 of a variety listed are sold at 1000 rate, except where quoted otherwise.

**WARRANTY:** While I exercise the greatest care to have all seeds pure and reliable, and all **bulbs, plants** and **nursery stock** true to name, I do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

## White Wells' Late Pink

Syn., MISS ELVIA SCOVILLE

THIS excellent commercial variety, which is a sport of Wells' Late Pink, is identical in every respect, as regards growth and size, with the parent. It has the same splendid habit that has made the Wells' Late Pink one of the most profitable varieties to grow, but the color, instead of being pink, is the purest glistening white.

The flowers brought a fancy price in the market from the first week in November until Thanksgiving and we feel safe in saying that White Wells' Late Pink will pay better than any other white now on the market as a fancy commercial variety. Every bloom lines up in the "big flower" class, without the loss from culls and deformed buds, that pulls down the average of so many varieties, when judged purely from a "dollar and cent" standpoint.

We have a large stock and are in a position to quote early delivery.

C. L. Hutchinson. A decided improvement on Garza. In this variety we have the ideal Anemone. The color of the petals is a pure white and the Anemone center is a bright yellow, making a beautiful contrast. Entirely distinct from Garza, and flowering, as it does, some ten days before that variety, makes it a very valuable acquisition.

2¼-inch: \$4.00 per 100, \$35.00 per 1000.

Godfrey's Perfection. (Garza type). A late variety which comes in excellent condition for Thanksgiving. Dwarf, robust habit, very stiff stem. Color of flower a beautiful, clear white.
